INSTRUCTIONS
(General)

This report should be executed by each organization unit which, during FY 1953, performed specific microfilming operations or which had such microfilming operations performed for it regardless of by whom performed, or which on the date the questionnaire was prepared had an inventory of microfilm equipment. The data reported must include all operations or inventory within the continental limits of the U.S.

DEFINITIONS

As used in instructions covering this survey the term:

- "Agency" means a Department or independent establishment of the government.
- "Organization unit" means any unit of organization of an agency which performs microfilming operations or which has an inventory of microfilm equipment, or a superior organization unit which can supply the required data covering such microfilm operations or equipment.
- "Microfilm equipment" means microfilm cameras, automatic feeders, enlargers, automatic film-developing and film-printing equipment and microfilm readers used in filming and inspection processes. It does NOT include microfilm readers used solely to service an existing library of microfilm reels, or splicers, rewinders and manual type film development kits.
- "Microfilm operations" includes rearrangement of records preparatory to filming, checking of accuracy of sequence of records preparatory to filming, removing staples and mending papers preparatory to filming, insertion of special targets, filming, film developing, film inspection, retakes and splicing, carton labeling and supervision; whether performed by your organization unit, other organization units within your agency, other agencies, or by private business under contract.

INSTRUCTIONS

(General)

Except for Block 9 the required entries are self-explanatory; most entries being referenced to the form and its column, code or block which will serve as the source.

Where more than one purpose is coded in column F of GSA FORM T75a, the entry in Block 9 of GSA FORM T76 will be based on the most important purpose, that is, the first code listed in column F.

DEFINITIONS

As used in this form the term:

1. "Agency" means a department or independent establishment of the government.
2. "Organization unit" means any unit of organization of an agency which performs microfilming operations or which has an inventory of microfilm equipment.
3. "Microfilm equipment" means microfilm cameras, automatic feeders, enlargers, automatic film-developing and film-printing equipment and microfilm readers used in filming and inspection processes. It does NOT include microfilm readers used solely to service an existing library of microfilm reels, or splicers, rewinders and manual type film development kits.
4. "Microfilm operations" includes rearrangement of records preparatory to filming, checking of accuracy of sequence of records preparatory to filming, removing staples and mending papers preparatory to filming, insertion of special targets, filming, film developing, film inspection, retakes and splicing, carton labeling and supervision; whether performed by your organization unit, or other organization units within your agency, by other agencies, or by private business under contract.

(General)

This schedule is used for reporting all microfilm operations (whether purchased or self-performed) where the completed film is used by the reporting organization unit. Operations conducted by the reporting organization unit as a service to another unit or agency shall be reported on GSA FORM T75a-1.

D E F I N I T I O N S

As used in instructions covering this survey the term:

1. "Agency" means a department or independent establishment of the government.
2. "Organization unit" means any unit of organization of an agency which performs microfilming operations or which has an inventory of microfilm equipment, or a superior organization unit which can supply the required data covering such microfilm operations or equipment.
3. "Microfilm equipment" means microfilm cameras, automatic feeders, enlargers, automatic film-developing and film-printing equipment and microfilm readers used in filming and inspection processes. It does NOT include microfilm readers used solely to service an existing library of microfilm reels, or splicers, rewinders and manual type film development kits.

"Microfilm operations" includes rearrangement of records preparatory to filming, checking of accuracy of sequence of records preparatory to filming, removing staples and mending papers preparatory to filming, insertion of special targets, filming, film developing, film inspection, retakes and splicing, carton labeling and supervision; whether performed by your organization, other organization units within your agency, other agencies, or by private business under contract.

C O L U M N

- A. Insert the title (or a brief description of the file) of each group of records which was microfilmed during fiscal year 1953.
- B. Insert the number of images for each group described in column A.
- C. Insert number of negative and positive or other duplicate film rolls for each group of record listed in column A.
- D. Show by whom the records were filmed. Use the following code:
 1. Your organization unit.
 2. Elsewhere within the agency.
 3. By another Government agency.
 4. By contract with private business. In these cases attach a copy of the Invitation to Bid and of the resulting contract for each such job.

Example: If Bureau A of agency X had the records filmed within its own Bureau it would use Code 1; if Bureau A had its records filmed by Bureau B of agency X, it would use Code 2; if by Government agency Y, it would use Code 3; if by a private microfilm company, it would use Code 4.
- E. If records were filmed by the reporting organization unit, show by whom the film was developed. Make no entry in this column if the *filming* operations were accomplished by other than the reporting organization unit. Use the following code:
 1. Your organization unit.
 2. Elsewhere within the agency.
 3. By another Government agency.
 4. By the vendor of the film.
 5. By other commercial processing laboratory.
- F. Show the general purpose for which the records were microfilmed. Use the following code:
 1. Disposal (To reduce cost of space or file equipment requirements.)
 2. Security.
 3. Preservation of deteriorating records.
 4. To produce film or paper copies.
 5. To reduce time or labor of current office operations.
 6. Other. Describe on separate sheet and attach to schedule.

If used for more than one purpose, list the codes in the order of their relative importance, with the most important listed first.
- G. Show retention period established for this record by agency record retention schedule.
- H. State YES or NO whether paper records were destroyed after filming.

NOTE: Microfilm operations performed by a reporting organization unit as a service for another reporting organization unit must be reported on GSA FORM T75a-1 by the unit performing the work and on GSA FORM T75a by the receiving unit.
